

## ALO 174-DCT

### Payoff table for crated or uncrated coils

#### ALO 174-DCT

174-DCT is a non-powered payoff table designed for pulling band saw blades directly from crates with the ALO's cut to length machines.

It can be equipped with one or two non-powered coil plates, 174-CPL that rolls on bearings, that will make it possible to use the table for open band saw coils.

The top section on the table can be rotated, letting you have two different crates or coils ready to use at the time. The crate are locked and hold in place by a mechanical locking device.

<b>CAPACITY:</b>	
Max crate size:	685 mm x 685 mm
Min crate size:	230 mm x 230 mm
Max. coil outer size*:	675 mm
Table height:	1100 mm
Table height adjust.:	-0 / +20 mm
Space requirement:	1650 Ø mm
Max crate/coil weight:	300 kg

\* When equipped with 174-CPL
